## Calculus TBD

-Either an engineering graphing calculator (TI CX CAS, TI-84, etc.) or PC/tablet spreadsheet with graphing capability (Excel, Google Sheets).

-Either a notepad, notebook or lab notebook (your choice), pencils, and eraser. Optionally, a pad of ¼" graph paper, a straight edge and right angle triangle will be valuable at times to quickly illustrate different answers, however if you are proficient on your calculator/spreadsheet program, you may use that as an alternative.

-Web access via tablet or PC for homework. While a phone might work, it isn't recommended.
